📍 Bangkok Noi, Bangkok

SKILLS

HTML, CSS, Javascript, Python, C#, C, PostgreSQL, MySQL, SQLite

Flask, Django, Svelte, SvelteKit

EDUCATION

Computer Engineering

King Mongkut's University of Technology Thonburi

2021 - Current

GPA 3.28
(5 semesters)

LANGUAGES

English: Intermediate
(A2 - Tested in 2020)

Thai: Native

PROFILE

Hello! I am a soon-to-be graduate Computer Engineering student in 2025. I possess fundamental knowledge of software development processes and tools. Currently, I am seeking an internship in a software engineering position. I am eager to seize learning opportunities and gain real-world experience.

EXPERIENCES

Projects

Software engineer final project 2023

- Developed a web application using SvelteKit framework and PostgreSQL that allows users to Create and Manage Personal Task.
- Worked in team of 5, Used Git for version control and Figma for UI designed.
- Developed users to Manage task by Kanban board and Task list.

Bangmod hackathon 2024 2023

- Developed a web application using SvelteKit framework and PostgreSQL for promote
- Developed a website for Bangmod hackathon 2024 application using Svelte + SvelteKit framework and using PostgreSQL as DBMS

Depa game accelerator program batch 3 2023

- Designed a web application using Vanilla HTML, CSS, Javascript for promotes Video game idea.
- Worked in team of 5, as developer and game designer
- Developed game mechanic prototypes, and pitched game idea.
- Qualified to top 10 out of 200+ teams

Database final project 2022

- Developed a web application using SvelteKit framework and PostgreSQL that allows users to Create and Manage Personal Task.
- Designed ER diagrams and queries for complex forms and reports

CS50x final project 2022

- Developed a web application for hosting course online using Flask and SQLite that allows users to upload and watch online courses.
- Presented application is develop as a final project in online course

Activities

Bangmod hackathon 2023 2022

- Designed competitive programing problems
- Created testcase for the problems

CPE Pre-freshy 2023 2022

- Taught freshman basic C programming for preparation in class
